## OBJECTIVE

---

As a final-year Computer Science student, I'm eager to apply my software development skills to real-world challenges. With a solid foundation in programming and web development, I'm ready to contribute to a collaborative team, gain practical experience, and grow in a dynamic environment.

## EXPERIENCE

---

2023 -  
Current

### MATH TUTOR

ROTARY TUTORING

- Monitored student progress, identified areas of improvement, and adapted teaching methods accordingly to ensure continued growth and success.

2023 -  
Current

### DEMONSTRATOR

UKZN

- Providing mentorship, assisting first years and second-year students with level 1 and level 2 Computer Science and ISTN modules.

## EDUCATION

---

2019

### National Senior Certificate

Umbonje High School

FINAL  
YEAR

### Computer Science and Information Technology

University of Kwazulu-Natal

## PROJECTS

---

### Portfolio Website

- Created a responsive portfolio website using HTML, CSS, and JavaScript to showcase my skills and projects. Features included a modern design, interactive UI elements. The site was deployed using GitHub. This project highlighted my abilities in front-end development and web design.

### Student Management System

- Developed a simple application using the Java Swing framework to manage student information. The system includes functionalities to add, view, update, and remove student records. It features a user-friendly graphical interface, allowing for efficient management and organization of student data. This project provided experience in object-oriented programming and user interface design.
